Subject: Directives

Team,

All patrol deputies shall be directed to do the following:

Daily

- have a **proactive attempt at traffic enforcement every day** (this results in crime reduction, traffic education, warrant arrest, dui arrest, citations, etc.) Our overall productivity on citations is way down. I look at the overall number, it is up to you to look at the individual deputies and encourage them. I do not want to call out individual deputies and their supervisors, but I will if it gets to that point.
- run W/INGS warrants for their zone daily, make an attempt, document warrant service in W/INGS
- be **visible around schools daily** as indicated below

Schools

- Spend some time patrolling in and around school campuses daily
- Know the layout of schools in there zone
- Know the name and phone number of School Safety Officers and deputies
- meet face to face with the School Safety Officer or Deputy regularly (once every week or two)

Other Notes for LT's:

- Soon, every LT. and Sgt. will receive a Knox Box key for schools. All deputies will also be given access to a data base with all current school maps and photographs, stay tuned.
- You should be receiving an email from SIS reference access to the Cannabis Registry. You will have to take a short quiz on it. This database if for Lt's only. You should only access this data base after evaluating a need/request from a Sgt. or Deputy. The usage of this database shall have a nexus to criminal activity that your team is investigating.
- Cannabis under 20 grams – if criminal charges occur from possession under 20 grams, it should be an NTA, not a physical arrest. If a physical arrest occurs, there should be a plus factor (other additional charges, career offender, doesn't meet NTA guidelines, or he/she really needs to go to jail and you can articulate that.)

-DUI arrests – DUI arrests are down. Confirm with your Sgt's that all deputies are comfortable making these cases, especially probationary deputies. They should work these coming out of field training, as the training is fresh and they need to gain confidence. Proficiency is key

Thank you

Ryan Brown
